FREQUENTLY ASKED QUESTIONS

What is Enroll Indy and why is unified enrollment important?
Before Enroll Indy launched, there was no single place to get information about schools in Indianapolis. There were dozens of different applications and deadlines. It was difficult for students and families to find information on the rules of each school's application. In 2015, a group of stakeholders in Indianapolis worked together to come up with a better system that would include neighborhood, magnet/choice, charter and innovation schools. The system is based on equity and transparency. The new application is called OneMatch.

What is OneMatch and how does it work?
OneMatch means that families can now fill out one application with one timeline and receive one match for their students. The OneMatch process, along with the Enroll Indy School Finder, will make choosing a school easier for families. Families can now use a single application to apply to up to 10 schools, instead of filling out different applications for every school they're interested in. OneMatch will also guarantee that the process is equitable -- seats will be awarded based on a lottery and the priorities a student qualifies for (proximity, sibling enrollment, etc.).

Who should use OneMatch?
Students who want or need a new school for the 2019-2020 school year should use OneMatch. If you are happy at your current school and want to remain there, you do not need to use OneMatch. OneMatch will match for seats in grades K-12. Any student in a terminating grade (for example, 8th graders who will need a high school) should complete a OneMatch application if they are interested in a public school seat. Any family who would like a seat in the IPS pre-K program will also use OneMatch to apply.

When are the OneMatch rounds?
1st round: November 1 - January 31 - Notification February 21
2nd round: February 1 - April 30 - Notification May 21
Apply early! Some schools may fill in the 1st round, so we encourage families to apply starting November 1st.

How can families fill out a OneMatch application?
OneMatch is available online and through mobile devices at www.enrollindy.org/apply. Students that are currently enrolled in an Enroll Indy school will need an ID number from their current school to apply. Parents will create an account, add students, and complete an application for each student. You can download the Enroll Indy app on your mobile device to complete an application as well. Families can apply in person at the Family Resource Center (120 E Walnut Street), at any Indianapolis Public Library, as well as at any participating school or community partner (see a list of organizations on the back of this document).

How many schools, and what kinds of schools, can a family apply for?
A family can apply to up to 10 schools of their choice. You can apply for fewer than 10 schools, and it will not hurt your chances of getting in to your top choices. All IPS schools and most charter schools in Indianapolis are participating. Private and township schools are not a part of OneMatch at this time.
