APPLYING FOR SCHOOLS - WHAT ARE MY OPTIONS?

K-8 NEIGHBORHOOD SCHOOLS

All K-8 students living in the IPS District have an assigned IPS neighborhood school based on their address. You do not need to use the OneMatch application to claim a seat at your child's K-8 neighborhood school. Visit the [School Finder](#) and enter your grade and address to learn about your neighborhood school. All incoming high school students must complete a OneMatch application.

CHARTER, INNOVATION, AND IPS CHOICE SCHOOLS

Charter, Innovation, and IPS Choice Schools in Indianapolis give students seats through a lottery. **In order for your student to get a seat in a Charter, Innovation, or IPS Choice, you must complete a OneMatch application.** You can apply up to 10 schools on an application. **All incoming high school students must complete a OneMatch application.**

PRE-K

Enroll Indy is now administering Pre-K enrollment for IPS. You can select up to 10 schools on your application, but you will only receive one school match. The only Pre-K priority is living within the IPS district. Being enrolled in a Pre-K program does not guarantee you a seat in a Kindergarten program. IPS does not provide transportation for its Pre-K program.

2019-2020 SCHOOL YEAR APPLICATION: SECTION C PART 1

APPLY FOR CHARTER, INNOVATION AND IPS CHOICE SCHOOLS

You can apply for up to 10 schools on OneMatch. Search for the school(s) you want and use the arrows to move them to "Selected Schools." Use the up and down arrows to put the schools in the order you prefer.

We will match your student based on your preferences, the school's priorities, and available seats at the school. The number of schools you select does not impact getting your top choice.

You are not required to select 10 schools. If your child needs a new school for next year, we encourage you to apply to as many schools as you are interested in attending. Only choose schools you are interested in. We do not guarantee a match, but you are guaranteed a seat in your IPS Neighborhood school (K-8 only) or you can apply in the next OneMatch round. Please see the Support panel for more information for how the lottery works.

FAMILY MATCH

Enroll Indy knows that it is important to keep families together. Some families want all their children to attend the same school and that is the most important thing to that family. Keeping their children together is MORE important than getting their top-ranked school. We call that a **Family Match**. Other families select different schools for their children, based on their interests. These families are fine with their children attending different schools. For those families, we turn **Family Match Off**. We can help your family do either of these things. For more information on **Family Match**, please see the support panel. Please choose the option below that best describes your family:

- It is most important to me to keep my students together at the same school, even if they can't go to my top-ranked schools. Please consider their application together as a family. I WILL APPLY FOR THE SAME SCHOOLS IN THE SAME ORDER FOR ALL MY STUDENTS THAT I WANT TO KEEP TOGETHER.
- My children can attend different schools. Please consider their applications separately.
- I am only applying for one child, so this does not matter to me.

[← BACK](#) [CANCEL](#) [NEXT >](#)

If your child has a sibling attending one of your selected schools, use this screen to add that sibling's name and grade. You can also specify if your student is a child of a staff member at that school.

If you are applying for more than one child and need your children to go to the same school, turn Family Match on.

If you are okay with your children attending different schools, turn Family Match off.

How Do Students Get Matched?

When there are more applications than there are available seats in a program, a lottery will determine which students receive seats. There are three variables that are a part of matching students to seats:

1. The student's rank of preferred programs.
2. The student's priority in a school's enrollment policy.
3. The student's random lottery number.

Important Notes

- Students only receive one match.
- Students who want to stay at their current school do not apply.
- Students don't give up their current seat UNLESS they get something they want more
- No more waitlists. Families can re-apply or visit Enroll Indy during late enrollment (first come, first serve)

FAQ

Do I have to apply to stay at my school?

No. You only apply if you want or need a new school for next year.

Do I have to apply to 10 schools?

No. Only apply to schools you are interested in attending. The number of schools you apply to doesn't impact whether you'll get into your top choice.

What if I don't know my ID?

You can get your ID from your current school, any participating school, or Enroll Indy. (If none of these are options, Enroll Indy will clean up the duplicate student records on the back end).

Does the order of schools matter?

Yes! List the schools in the order you want them. We will try to match you with your first choice, then your second choice, and so on.

Published
10/29/18

FAQ

Can I keep my kids together?

Yes! Use Family Match on your application and make sure you rank your schools in the same order on all your kids' applications

Is the computer choosing my school?

No. The computer is just using your preferences, the school's priority policies, and your random lottery number to match you to the school you want the most that you can get. It's doing the work much faster than if we tried to do it on paper.

If I apply, am I giving up my current seat?

Yes and No. **If you apply and you are matched to another school, you are giving up your current school.** If you apply and you do not get into another school, you keep your current seat.

What if I don't get matched or I don't get my first choice?

You can apply again in a later round of OneMatch, or you can enroll in open seats during late enrollment (first-come, first-served).
